1. Identification

Product identifier used on the label

Adipic Acid - G

Recommended use of the chemical and restriction on use

Recommended use*: for the production of homopolymerisates and copolymerisates; initial product for chemical syntheses Unsuitable for use: food additive(s) Not intended for sale to or use by the general public.

* The "Recommended use" identified for this product is provided solely to comply with a Federal requirement and is not part of the seller's published specification. The terms of this Safety Data Sheet (SDS) do not create or infer any warranty, express or implied, including by incorporation into or reference in the seller's sales agreement.

Details of the supplier of the safety data sheet

<u>Company:</u> BASF CORPORATION 100 Park Avenue Florham Park, NJ 07932, USA

Telephone: +1 973 245-6000

Emergency telephone number

24 Hour Emergency Response Information CHEMTREC: 1-800-424-9300 BASF HOTLINE: 1-800-832-HELP (4357)

Other means of identification

Molecular formula: Chemical family: Synonyms: C6 H10 O4 No data available. ADIPIC ACID 1,6 Hexanedioic Acid

2. Hazards Identification

According to Regulation 2012 OSHA Hazard Communication Standard; 29 CFR Part 1910.1200

Classification of the product

1

Eye Dam./Irrit.

Revision date: 2023/05/02 Version: 5.0

Page: 2/11 (30042497/SDS_GEN_US/EN)

Aquatic Acute	3	Hazardous to the aquatic environment - acute

Pictogram:				
A PROVIDENCE				
•				
Signal Word: Danger				
Hazard Statement:				
H318 H402	Causes serious eye damage. Harmful to aquatic life.			
Precautionary Statements (Prevention):				
P280 P273	Wear eye and face protection Avoid release to the environ			
Precautionary Statements (Response):				
P305 + P351 + P338	IF IN EYES: Rinse cautious	ly with water for several minutes. Remove		
P310	Immediately call a POISON	nd easy to do. Continue rinsing. CENTER or physician.		
Precautionary Statements (Disposal): P501 Dispose of contents/container in accordance with local regulations.				

Hazards not otherwise classified

No specific dangers known, if the regulations/notes for storage and handling are considered.

3. Composition / Information on Ingredients

According to Regulation 2012 OSHA Hazard Communication Standard; 29 CFR Part 1910.1200

adipic acid

CAS Number: 124-04-9 Content (W/W): >= 75.0 - <= 100.0% Synonym: 1,4-Butanedicarboxylic acid; Adipic acid, Hexanedioic acid

4. First-Aid Measures

Description of first aid measures

General advice:

Remove contaminated clothing.

If inhaled:

Remove the affected individual into fresh air and keep the person calm. Assist in breathing if necessary. Immediate medical attention required.

Revision date: 2023/05/02 Version: 5.0

If on skin:

Wash affected areas thoroughly with soap and water. Remove contaminated clothing. Immediate medical attention required.

If in eyes:

Hold eyes open and rinse slowly and gently with water for 15 to 20 minutes. Remove contact lenses, if present, after first 5 minutes, then continue rinsing. Seek medical attention.

If swallowed:

Rinse mouth and then drink 200-300 ml of water. Do not induce vomiting. Never induce vomiting or give anything by mouth if the victim is unconscious or having convulsions. Immediate medical attention required.

Most important symptoms and effects, both acute and delayed

Symptoms: Overexposure may cause:, dyspnea, coughing

Indication of any immediate medical attention and special treatment needed

Note to physician

Treatment:

Treat according to symptoms (decontamination, vital functions), no known specific antidote.

5. Fire-Fighting Measures

Extinguishing media

Suitable extinguishing media: water spray, foam, dry powder

Unsuitable extinguishing media for safety reasons: water

Special hazards arising from the substance or mixture

Hazards during fire-fighting: No particular hazards known.

Advice for fire-fighters

Protective equipment for fire-fighting: Firefighters should be equipped with self-contained breathing apparatus and turn-out gear.

Further information:

If exposed to fire, keep containers cool by spraying with water.

Impact Sensitivity: Method:

Explosive properties

6. Accidental release measures

Personal precautions, protective equipment and emergency procedures

Revision date: 2023/05/02 Version: 5.0

Avoid dust formation. Sources of ignition should be kept well clear. Use breathing apparatus if exposed to vapours/dust/aerosol. Information regarding personal protective measures, see section 8.

Environmental precautions

Substance/product is RCRA hazardous due to its properties.

Methods and material for containment and cleaning up

Spills should be contained, solidified, and placed in suitable containers for disposal.

7. Handling and Storage

Precautions for safe handling

Ensure thorough ventilation of stores and work areas. Avoid contact with skin and eyes. Wear suitable protective clothing and eye/face protection. Handle in accordance with good industrial hygiene and safety practice.

Protection against fire and explosion: No explosion proofing necessary.

Conditions for safe storage, including any incompatibilities

Segregate from alkalies and alkalizing substances.

Suitable materials for containers: Stainless steel 1.4401, Stainless steel 1.4301 (V2), Aluminium, Polyester resin, glass reinforced (Palatal A410), Paper/Fibreboard, High density polyethylene (HDPE), glass, Low density polyethylene (LDPE)

Further information on storage conditions: Avoid extreme heat. Keep away from sources of ignition - No smoking.

Storage stability: Tends to cake.

8. Exposure Controls/Personal Protection

Components with occupational exposure limitsadipic acidACGIH, US:TWA value5 mg/m3 ;

Advice on system design:

Provide local exhaust ventilation to control dust.

Personal protective equipment

Respiratory protection:

Wear a NIOSH-certified (or equivalent) particulate respirator. Do not exceed the maximum use concentration for the respirator facepiece/cartridge combination.

Hand protection:

Chemical resistant protective gloves

Eye protection:

Tightly fitting safety goggles (chemical goggles).

Revision date: 2023/05/02 Version: 5.0

Body protection:

Body protection must be chosen depending on activity and possible exposure, e.g. head protection, apron, protective boots, chemical-protection suit.

General safety and hygiene measures:

Avoid inhalation of dusts. Eye wash fountains and safety showers must be easily accessible. Wear protective clothing as necessary to minimize contact. Handle in accordance with good industrial hygiene and safety practice. Take off immediately all contaminated clothing. At the end of the shift the skin should be cleaned and skin-care agents applied.

9. Physical and Chemical Properties

Form: Odour: Odour threshold: Colour:	crystalline of acetic acid No data available. white	
pH value:	2.7 (23 g/l, 25 °C) 3.2 (10 g/l)	(pH Meter)
Melting point:	150.85 °C	(Directive 92/69/EEC, A.1)
Boiling point:	337.5 °C (1,013 hPa) Literature data.	
Sublimation point:	No applicable information available.	
Flash point:	196 °C Literature data.	(closed cup)
Flammability:	not highly flammable	(Directive 92/69/EEC, A.10)
Lower explosion limit:	No data available.	
Upper explosion limit:	No data available.	
Autoignition:	405 °C 0.097 hPa	(DIN 51794)
Vapour pressure:	(18.5 °C)	
	Literature data.	
Density:	1.36 g/cm3 (25 ℃)	
	Literature data.	
Relative density:	1.36	
	(25 °C)	
Duille dans it is	Literature data.	
Bulk density: Vapour density:	approx. 700 kg/m3 No data available.	(other)
Partitioning coefficient n-	0.093	(measured)
octanol/water (log Pow):	(25 °C)	(measured)
Self-ignition	not self-igniting

Thermal decomposition:	No data available.	· ,
Viscosity, dynamic:	No data available.	
Viscosity, kinematic:	No data available.	
Particle size:	approx. D50 60 μm	(measured)

Safety Data Sheet

Adipic Acid - G Revision date: 2023/05/02 Version: 5.0

Solubility in water:	23 g/l
	(25 °C)
	Literature data.
Solubility (qualitative):	soluble
	solvent(s): organic solvents,
Molar mass:	146.14 g/mol
Evaporation rate:	The product is a non-volatile solid.

10. Stability and Reactivity

Reactivity

Corrosion to metals: No corrosive effect on metal.

Oxidizing properties: Based on its structural properties the product is not classified as oxidizing.

Minimum ignition energy: 10 - 30 mJ (DIN EN 13821) Formation of Remarks: flammable gases:

Forms no flammable gases in the presence of water.

Chemical stability

The product is stable if stored and handled as prescribed/indicated.

Possibility of hazardous reactions

The product is chemically stable.

Conditions to avoid

No data available. Avoid extreme heat. Avoid sources of ignition.

Incompatible materials

strong bases, oxidizing agents

Hazardous decomposition products

Decomposition products: Thermal decomposition products: No hazardous decomposition products if stored and handled as prescribed/indicated., Incomplete combustion results in formation of toxic gases, containing mainly carbon monoxide and carbon dioxide.

Thermal decomposition: No data available.

11. Toxicological information

Primary routes of exposure

Routes of entry for solids and liquids are ingestion and inhalation, but may include eye or skin contact. Routes of entry for gases include inhalation and eye contact. Skin contact may be a route of entry for liquefied gases.

Revision date: 2023/05/02 Version: 5.0

Acute Toxicity/Effects

Acute toxicity

Assessment of acute toxicity: Virtually nontoxic after a single ingestion. Virtually nontoxic by inhalation. Virtually nontoxic after a single skin contact.

<u>Oral</u> Type of value: LD50 Species: rat (male/female) Value: approx. 5,560 mg/kg (BASF-Test)

Inhalation Type of value: LC50 Species: rat Value: > 7.7 mg/l (BASF-Test) Exposure time: 4 h An aerosol was tested.

Dermal Type of value: LD50 Species: rabbit (male/female) Value: > 7,940 mg/kg (other)

<u>Assessment other acute effects</u> Assessment of STOT single: Based on available data, the classification criteria are not met.

<u>Irritation / corrosion</u> Assessment of irritating effects: May cause slight irritation to the skin. May cause severe damage to the eyes.

<u>Skin</u> Species: rabbit Result: non-irritant Method: BASF-Test

<u>Eye</u> Species: rabbit Result: Risk of serious damage to eyes. Method: OECD Guideline 405

<u>Sensitization</u> Assessment of sensitization: Skin sensitizing effects were not observed in animal studies. A sensitizing effect on particularly sensitive individuals cannot be excluded.

Species: guinea pig Result: Non-sensitizing. Method: other

<u>Aspiration Hazard</u> No aspiration hazard expected.

Chronic Toxicity/Effects

Repeated dose toxicity

Revision date: 2023/05/02 Version: 5.0

Assessment of repeated dose toxicity: Repeated oral uptake of the substance did not cause substance-related effects.

The substance may cause damage to the upper respiratory tract after repeated inhalation, as shown in animal studies. May affect the liver and kidneys as indicated in animal studies. May affect the central nervous system as indicated in animal studies.

Genetic toxicity

Assessment of mutagenicity: The substance was not mutagenic in bacteria. The substance was not mutagenic in mammalian cell culture. The substance was not genotoxic in mammalian cell culture. The substance was not genotoxic in a test with mammals.

Carcinogenicity

Assessment of carcinogenicity: In long-term animal studies in which the substance was given in high concentrations by feed, a carcinogenic effect was not observed.

Reproductive toxicity

Assessment of reproduction toxicity: No effects have been reported in reproductive organs in long term animal studies.

Teratogenicity

Assessment of teratogenicity: No indications of a developmental toxic / teratogenic effect were seen in animal studies.

Medical conditions aggravated by overexposure

Data available do not indicate that there are medical conditions that are generally recognized as being aggravated by exposure to this substance/product. See SDS section 11 - Toxicological information.

12. Ecological Information

Toxicity

Aquatic toxicity

Assessment of aquatic toxicity:

Acutely harmful for aquatic organisms. The inhibition of the degradation activity of activated sludge is not anticipated when introduced to biological treatment plants in appropriate low concentrations.

<u>Toxicity to fish</u> LC0 (96 h) >= 1,000 mg/l, Brachydanio rerio (other, static) Nominal values (confirmed by concentration control analytics)

<u>Aquatic invertebrates</u> LC50 (48 h) 46 mg/l, Daphnia magna (OECD Guideline 202, part 1) Nominal concentration.

<u>Aquatic plants</u> EC50 (72 h) 64.5 mg/l (growth rate), Pseudokirchneriella subcapitata (OECD Guideline 201, static) Nominal concentration.

No observed effect concentration (72 h) 40.6 mg/l (growth rate), Pseudokirchneriella subcapitata (OECD Guideline 201, static) Nominal concentration.

<u>Chronic toxicity to fish</u> Study scientifically not justified.

Revision date: 2023/05/02 Version: 5.0

<u>Chronic toxicity to aquatic invertebrates</u> No observed effect concentration (21 d) 6.3 mg/l, Daphnia magna (OECD Guideline 211) Nominal concentration.

Assessment of terrestrial toxicity No data available. Study scientifically not justified.

Microorganisms/Effect on activated sludge

Toxicity to microorganisms OECD Guideline 209 aerobic activated sludge/EC50 (3 h): > 100 mg/l

Persistence and degradability

Assessment biodegradation and elimination (H2O) Readily biodegradable (according to OECD criteria).

Elimination information

83 % BOD of the ThOD (30 d) (OECD 301D; EEC 92/69, C.4-E) (aerobic, domestic sewage) Literature data.

Assessment of stability in water According to structural properties, hydrolysis is not expected/probable.

Bioaccumulative potential

<u>Assessment bioaccumulation potential</u> Because of the n-octanol/water distribution coefficient (log Pow) accumulation in organisms is not to be expected.

Bioaccumulation potential Bioconcentration factor: 3.16 (calculated) Accumulation in organisms is not to be expected.

Mobility in soil

<u>Assessment transport between environmental compartments</u> The substance will not evaporate into the atmosphere from the water surface. Adsorption to solid soil phase is not expected.

Additional information

Other ecotoxicological advice: Do not release untreated into natural waters.

13. Disposal considerations

Waste disposal of substance:

Do not discharge into waterways or sewer systems without proper authorization. Dispose of in accordance with national, state and local regulations.

Revision date: 2023/05/02 Version: 5.0

Container disposal:

Empty containers with less than 1 inch of residue may be landfilled at a licensed facility. Recommend crushing, puncturing or other means to prevent unauthorized use of used containers. If containers are not empty, they must be disposed of in a RCRA-licensed facility.

RCRA: D002

14. Transport Information

Land transport USDOT	Not classified as a dangerous good under transport regulations
Sea transport IMDG	Not classified as a dangerous good under transport regulations
Air transport IATA/ICAO	Not classified as a dangerous good under transport regulations

15. Regulatory Information

Federal Regulations

Registration status:ChemicalTSCA, USreleased / listed

EPCRA 311/312 (Hazard categories): Refer to SDS section 2 for GHS hazard classes applicable for this product.
