Ultramid® endures long term durability in wind energy

BASF
The Chemical Company

Bearing support for slewing ring made of Ultramid®

Application: Bearing support for slewing ring

Advantages with Ultramid® A4H

- Low maintenance cost due to :
 - Low compression set
 - High wear resistance
 - Extreme temperature resistance
 - High durability over lifetime

Product disclaimer

The information and data given here are based on our current knowledge and experience. This does not relieve the purchaser of our products from incoming inspection. The information and data do not describe the suitability of the product for a specific application. Composition - and durability statements - as well as any other statements are not to be considered as a warranty.

The values contained herein are based on analysis/testing of laboratory test specimens and represent data that fall within the normal range of properties for natural materials, unless stated otherwise. Colorants and additives may alter properties.

This information is provided as a service for comparative purposes only and in no way constitutes any product specification or the like. For component design the data contained herein are applicable as guideline only.
