The declaration and information given herein is exclusively provided for our customers and the respective competent authorities. It is not intended for publication either in printed or electronic form (e.g. via Internet) by any third party. Neither partial nor full publication is allowed without the prior written permission of BASF. The data indicated above are the results of our investigations, correspond to the state-of-the-art and are based on our current knowledge and experience. The data refer to the state of the laws at the date of issue.

BASF produces a wide variety of high quality polyisobutylenes marketed by BASF under the trademark OPPANOL® that satisfy the manifold requirements of our customers, including products that may meet the specifications for use in food, medical, pharmaceutical or cosmetics applications. BASF has proven expertise in supporting and working with our customers in the innovative use and application of our materials. However, BASF has not designed or tested its OPPANOL® grades with respect to special requirements related to their use in medical devices (defined in the European, US or other local medical device legislation), pharmaceuticals and cosmetics. In view of the many factors that may affect the processing and use of our OPPANOL®, the data in this publication do not relieve processors of the responsibility to carry out their own inspections and tests, neither do these data imply any guarantee of certain properties, nor the suitability of the product for a specific purpose. Any descriptions, drawings, photographs, data, proportions, weights etc. given herein may change without prior notice and do not constitute the agreed contractual quality of the product. It is the responsibility of the recipient to ensure that all proprietary rights, laws and legislation are observed. BASF does not recommend the use of or claim the suitability of OPPANOL® in a specific application and, therefore, the decision to use OPPANOL® is solely at the customer's own risk. It is the responsibility of the customer to determine whether their manufacturing process and the end application using OPPANOL® is safe, lawful and technically suitable for the intended use. BASF extends no warranties or guarantees, express or implied, concerning the suitability of OPPANOL® for any specific application, especially for a possible use in medical, pharmaceutical or cosmetics applications. Moreover, BASF does never supply its OPPANOL® products for the manufacture of implants.

OPPANOL® B	10 SFN	11 SFN	12 SFN	13 SFN	14 SFN	15 SFN
	10 N		12 N			15 N
Stabilizer [ppm] (average BHT concentration)	no	no	no	no	no	no
	500		500			500
<b>Specification</b>						
Staudinger Index Jo* [cm <sup>3</sup> /g]	27.5–31.2	30.7–36.0	34.5–39.0	39.0–43.0	42.5–46.4	45.9–51.6
<b>Typical characteristics</b>						
Average molecular weight M <sub>v</sub> (viscosity average)	40,000	47,000	55,000	65,000	73,000	85,000
Average molecular weight M <sub>w</sub> (weight average) Expressed in equivalents of PS	53,000		70,000			108,000
Average molecular weight distribution M <sub>w</sub> /M <sub>n</sub>	3.2		3.2			3.2
Volatiles, 150 °C, 4 h, 150 mbar [%]	< 0.25	< 0.25	< 0.25	< 0.25	< 0.25	< 0.25
Fluorine [ppm]	< 5					
Chlorine [ppm]	< 5					
Ash content [ppm]	< 100					
<b>Typical properties</b>						
Appearance	transparent to slightly turbid					
Color	colorless to slightly yellow					
Glass transition temperature [°C]	-64					
Specific heat [kJ/(kg*K)]	2.0					
Heat conductivity [W/(m*K)]	0.19					
Relative Permittivity (100 Hz, 1 mm, RT)	IEC 60250	2.7				
Specific resistance [Ωcm]	IEC 60093	10 <sup>16</sup>				
Shear viscosity	Details upon request					
Packaging	20 kg box, 45.4 kg drum					
Shelf life**	box: 2 years from date of production drum: 3 years from date of production
