

ELASTOSPRAY® Series

PURSpa

Spa Solutions

A large white hot tub is the central focus, situated on a balcony with a white metal railing. The background features a clear blue sky, a calm sea, and distant mountains. A small white structure with a dome is visible on the balcony. The hot tub has several jets and a control panel on the side.

■ - BASF

We create chemistry

BASF's PURSpa series featuring ELASTOSPRAY® and ELASTOCAST® polyurethane technology are tailored specifically to the spa market. These high-performance products make spas more energy efficient and durable. Through our commitment to sustainability and innovation, we are changing the way spas are built around the world.

BASF, a leading global manufacturer of polyurethane foam, is recognized worldwide for our commitment to unsurpassed quality and long-lasting value. Research and technical expertise ensures our PURSpa portfolio provides high-quality, innovative spa solutions for your business.

Benefits of Polyurethane Foam

- Improves structural support and durability
- Increased energy efficiency compared to traditional insulation
- HBF rated systems available
- Low water permeance can extend longevity of the insulation performance
- Adhesion to ABS
