## EU REACH Compliance Statement

### Part 1: EU REACH compliance status of products delivered to customer sites inside the European Economic Area (EEA) by BASF group companies

The product(s) of the Annex delivered to customer sites in the EEA by BASF group companies are compliant with EC Regulation 1907/2006 (REACH), as all the substances and/or the respective polymer building blocks are exempted from registration or have been registered by the responsible EEA manufacturers or EEA importers.

### Part 2: EU REACH compliance status of products delivered to customer sites outside the European Economic Area (EEA) by BASF group companies

For the products of the Annex delivered to customer sites outside the EEA by BASF group companies compliance with EC Regulation 1907/2006 (REACH) is undefined as:

Each EU importer is subject to REACH pre/registration obligations for imports of substances in quantities > 1 t/y. Non-EU BASF group companies are no potential REACH registration holders and therefore cannot issue a declaration concerning a product's compliance with REACH.

If you wish to import products of the Annex or formulations containing them into the EEA, please contact your BASF sales or customer service counterpart in order to request support concerning REACH compliance (e.g. REACH Only Representative service) covered.
