Product Information: *RoHS*

EU Directive 2011/65/EU for the restriction of the use of certain hazardous substances in electrical, electronic equipment (RoHS)

Dear Sir or Madam;

Based on the information available to us from our raw material suppliers, and our knowledge of the products' compositions, the BASF products listed below do not contain any substances listed in EU Directive 2011/65/EU Annex II as valid at the date of this letter.

Directive 2011/65/EU Annex II contains the following substances (maximum concentration values tolerated by weight in homogeneous materials in brackets):

- Lead (0,1 %)
- Mercury (0,1 %)
- Cadmium (0,01 %)
- Hexavalent chromium (0,1 %)
- Polybrominated biphenyls (PBB) (0,1 %)
- Polybrominated diphenyl ethers (PBDE) (0,1 %)
- Bis(2-ethylhexyl) phthalate (DEHP) (0,1 %)
- Butyl benzyl phthalate (BBP) (0,1 %)
- Dibutyl phthalate (DBP) (0,1 %)
- Diisobutyl phthalate (DIBP) (0,1 %)

BASF does not routinely analyze the products for the presence of these substances. However, based upon knowledge of the manufacturing process and the raw materials utilized, these substances are not expected to be present in the final products in levels exceeding the maximum concentration values of EU Directive 2011/65/EU.

The Chemical Company

This statement applies to the following product lines:

**3S Modifier
BASOTECT®
Capron®
ECOFLEX®
ECOVIO®
ULTRADUR®
ULTRAFORM®
ULTRAMID®
ULTRASON®**

It is intended exclusively for our customers and the respective competent authorities who need to know it for legal or regulatory purposes. This document may not be published in printed or electronic form (e.g. via the Internet) without our prior written consent.

This document or any responses or information provided herein by BASF do not constitute a legally binding obligation on the part of BASF. The descriptions, designs, data and information contained herein are presented to the best of our knowledge and belief and are believed to be correct but are for informational purposes only. They do not constitute an agreement regarding a specific suitability for use or a guarantee of specific properties. Subjective and/or objective requirements for the product are expressly excluded. Since many factors can influence the processing, application or use, no statement on the suitability of the product for a specific purpose can be derived from our information. Rather, it is the customer's responsibility to carry out tests before using a product in order to determine its suitability for its own specific purpose. No warranties of any kind, express or implied, including the warranties of merchantability or fitness for a particular purpose, are made with respect to the products described or the designs, data or information presented, or that the products, designs, data or information can be used without infringing the intellectual property rights of others. In no event shall the descriptions, information, data or designs provided be considered part of our General Conditions of Sale.

Products made with recycled polymers as raw materials (products that feature 'RC' in their trade name):

Products of the above-mentioned product lines that feature 'RC' in their trade name contain components, ingredients, and/or raw materials that have been manufactured by a recycling process, which means that they are manufactured from end-of-life residue or waste material as feedstock. Waste as a raw material can exhibit fluctuating chemical composition and can contain significantly higher levels of contaminants of various and/or potentially unknown types. Therefore, also the products manufactured from waste through recycling processes must be expected to have a spectrum of impurities which may vary to a stronger extent from batch to batch.

As BASF has no influence on the contamination spectrum of waste materials used in recycling processes or of external raw materials that have resulted from recycling and BASF does not monitor such contamination spectrum, BASF does not assume any liability and provides no guarantees regarding compliance with certain value limits and/or the general or specific absence of impurities or contaminations for these products.

Consequently, BASF does not support 'RC' products for the use in any sensitive applications (e.g. food contact, drinking water, medical, toys and/or consumer goods).
