

Priaxor®

Xemium® Brand Fungicide

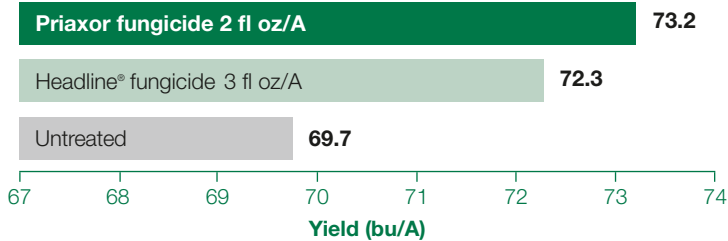

Early Season Wheat Applications

Benefits of Priaxor® Fungicide

- Advanced Plant Health benefits
- Longest lasting protection
- Additional mode of action for resistance management
- Crop safety

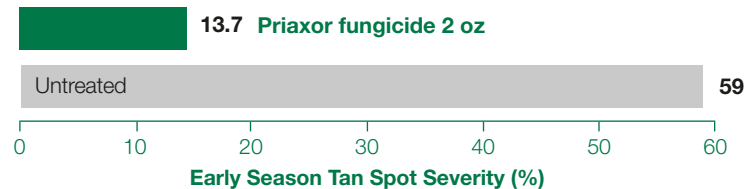

Priaxor fungicide protects yield potential from early season stresses

Increased Yield

2010–2012 Replicated trials with head to head comparisons. (N=27) Application timing Feekes 5–7.

Early Season Tan Spot Severity

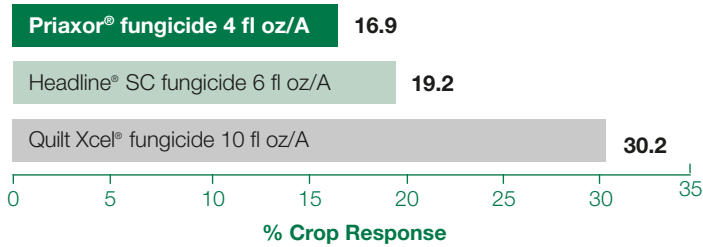

2012 Replicated trials (n=3) VA, MT(2). Application timing Feekes 5–7.

Crop safety for early applications when tank mixed with herbicides and nitrogen based nutritionals

All Treatments included: 1) Harmony[®] Extra Herbicide, 2) UAN (as carrier), 3) Non-ionic surfactant.

2011 Replicated Trials. (n=3) NC, TN, VA. Applications at Feekes 6.
Ratings taken 5–8 DAT. Full rates of fungicides, Harmony Extra (0.7–0.9 oz/A).

Priaxor Fungicide Early Season Use Directions

- For early season disease control and Plant Health, apply Priaxor fungicide at 2–4 fl oz/A

Wheat Fungicide Portfolio: Product for Every Wheat Segment

Stamina F3 Cereals

Fungicide Seed Treatment

Seed Treatment

- Broad-spectrum seedling disease control
- Increased emergence (certain cold conditions)
- Convenient application

Priaxor[®]

Xemium[®] Brand Fungicide

Herbicide/Top Dress

- Advanced Plant Health
- 3rd MOA
- Longer residual activity
- Crop safety
