

Scepter® 70 DG

Herbicide

Broad Spectrum and Flexible Weed Control

Benefits of Scepter® 70 Herbicide

- Scepter herbicide is a uniquely flexible herbicide that controls more broadleaf weeds and grasses using a single, low rate for all soil types.
- Whatever soybean variety and tillage system you work with, whatever your cropping schedule, or the surprises the weather may bring, you've got plenty of choices and time on your side to do it right.
- With a wide window of application up to 45 days prior to planting. Or, you can apply it post with glyphosate to beef up residual control in your Roundup Ready® soybeans. Also controls up to 12" RR volunteer corn with 1.4 oz/A.

Scepter controls more broadleaf weeds and grasses using a single, low rate for all soil types.
