

Flo Rite®

Plantability Polymer

Flo Rite® 1197 Plantability Polymer for Wheat and Sunflowers

Keep Seed Treatments Where They Belong

- Improves adhesion of actives
- Reduces and controls dust-off
- Preserves value of seed treatments
- Compatible with major fungicides, insecticides and colorants

Improve Plantability of High-Value Genetics

- Improves flow through planter
- Increases seed drop accuracy
- Reduces stickiness, seed bridging and clumping

Increase Seed Treatment Flow and Handling

- Provides more uniform coverage of treatments
- Creates smoother seed surface and improved appearance
- Reduces stickiness, seed bridging and clumping
- Helps increase seed flow during conditioning
- Improves handling following seed treatment
- Eliminates need for talc* during seed treatment

* Growers should follow their planter manufacturer's recommendation for seed/planter lubricant requirements (graphite or talc).

Flo Rite Plantability Polymers
reduce dust-off and
improve flowability

Technical Information Bulletin

 **BASF**
The Chemical Company

Crop & Treatment	Application Rate**
Wheat	2.0 fl oz/CWT
Sunflowers	6.0 fl oz/CWT

** Suggested rate. Some variation may occur. Adjust rates to obtain the desired coverage for seed size, seed coat, conditioning equipment and total slurry.

Convenient Handling and Application

- Neutral pH and low viscosity
- Water based, easy clean up

Wheat Sunflowers

Package Size	Units/Pallet	Est. CWT Seed Treated @ 2.0 fl oz Rate	Est. CWT Seed Treated @ 6.0 fl oz Rate
2 x 2.5 gallons/case	36 cases	320 CWT/case	106 CWT/case
30 gallon drum	5 drums (includes Micro Matic fitting)	1,920 CWT/drum	640 CWT/drum
260 gallon tote	1 tote	16,640 CWT/tote	5,546 CWT/tote

Use in combination with Color Coat Seed Colorants

Color Coat™ Colorants

- Ready-to-use liquid colorants
- Use to help identify seed by the type of actives applied or improve appearance
- Effectively color almost any seed regardless of size, shape or texture
- Compatible with all major active seed treatment ingredients
- Water-based for easy cleanup

(Actual product color and color on seed will vary based on application rate, other treatments and seed coat color.)
