

# Mix and match:

new certified home compostable ecovio® portfolio for flexible barrier packaging

- Enables high-barrier packaging and ultra-thin biaxially stretched films for FMCGs
- For different packaging functionalities, processing technologies and packaging systems
- Multiple end-of-life options: certified home and industrial compostable ecovio®
- Bio-based contents from 40 to 80 % or biomass-balanced ecovio® grades possible

## New ecovio® toolbox offers adjustable, excellent barrier solutions against:

- Grease, oil and waxes
- Liquids
- Oxygen and moisture

## Ultra-thin biaxially stretched films:

- Certified industrial and home compostable
- Food-contact approved
- Excellent mechanical and optical properties: highly transparent

## Smooth manufacturing on existing machines:

- Extrusion coating, films or sheets
- Mono- or multi-layer
- Lamination via extrusion, adhesives or heat

## Different substrates possible:

- **Paper and board:** organic or mechanical recycling with high fiber recovery
- **Plastic:** organic recycling in industrial or home compost without persistent microplastic

## Applicable with FMCG packaging:

- Food and beverages
- Personal care
- Healthcare articles
- Pet food
