Efka® SL 3200

Universal silicone-based solvent-free slip and leveling agent

Application:

Efka SL 3200 is a solvent-free polysiloxane block polymer and universal silicone-based solvent-free slip and leveling agent; suitable for aqueous, solvent-based and UV formulations. The product improves flow and slip of solvent-based and solvent-less coatings

Sustainability Highlights:

- Tin-Free
- APEO-Free
- Low VOC
- Food Contact Compliant

Performance Highlights:

- Universal slip and leveling agent
- Improves flow and slip
- 100% actives

Characteristic Values:

	Efka SL 3200
Appearance:	Clear to slightly cloudy liquid
Solid Content:	> 95 %
Density at 20 °C:	~ 1.05 g/cm^3
