

Servil P

PRD-No.

30696602

Articles

50573083* 850 kg IBC

* This product is vegetarian, gluten free

Country of origin

EU

Description

Yellow liquid with a neutral odor.

Wax ester based on vegetable oil stabilized with an antioxidant system. Processing aid for food products.

Used as a release agent for baked goods.

Composition

Ingredients in descending order of weight:

Wax ester, lecithins (E 322), ascorbyl palmitate (E 304), tocopherol-rich extract (E 306), citric acid esters of mono- and diglycerides of fatty acids (E 472c).

Standards

All additives used in Servil P comply with the current specifications established by the Joint FAO/WHO Expert Committee on Food Additives (JECFA) and the current EU Regulation laying down specifications for food additives.

Manufactured under ISO 9001 as well as HACCP methodology.

Specification

For further information see separate document: "Standard Specification" (not for regulatory purposes) available via BASF's World Account: <https://worldaccount.basf.com>

Storage conditions

The product should be stored at temperatures between 15 - 25 °C, in a dry place, protected from light.

Shelf life

In its unopened original package under the mentioned conditions the product has a shelf life of 12 months.

Applications

Due to its excellent lubricating effect it is used as release agent for baked goods. It is also used as a lubricant/pounding agent during the fresh yeast production: direct addition of Servil P in the extruder container as well as a lubricant for the extruder tip.

Dosing

Recipes are available on request.

Summary

Servil P is used as special oil in release agents for baked goods.
