

Spongolit® Pure 10

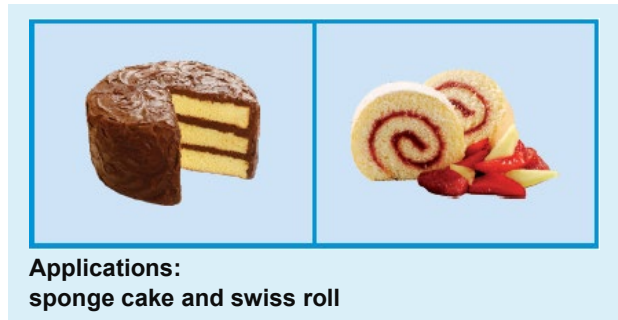

PRD-No.

30703783

Articles

50649499* 15 kg multilayer paper bag with PE-lining

* This product is halal, kosher

Applications:
sponge cake and swiss roll

Country of origin

EU

Description

White to yellowish powder.

Powder system only consisting of protein hydrolysate and glucose.

Used as an aerating system for the production of cakes.

Composition

Ingredients in descending order of weight:

Protein hydrolysate, glucose.

Standards

All ingredients used in Spongolit® Pure 10 comply with current EU requirements and Regulations relevant for food ingredients.

Manufactured under ISO 9001 as well as HACCP methodology.

Specification

For further information see separate document: "Standard Specification" (not for regulatory purposes) available via BASF's World Account: <https://worldaccount.basf.com>

Storage conditions

The product should be stored at temperatures below 30 °C, in a dry place.

Shelf life

In its unopened original package under the mentioned conditions the product has a shelf life of 18 months.

Applications

Spongolit® Pure 10 can be used as aerating system in cake applications, especially for sponge cakes and swiss rolls to improve cake volume, crumb structure, crumb moistness and texture.

Dosing

Using Spongolit® allows an all in method during manufacturing.

The dosage is depending on used flour quality as well as adding of further ingredients, preparation method (whipping times), used equipment (speed, energy input) and cake quality expectations.

Recipes are available on request.

Summary

Spongolit® Pure 10 is an aerating system which can be used in cake applications. It combines fast batter aeration with a medium cake volume and an elastic and soft crumb structure in the final application.
