

Lactovit HC

PRD-No.

30530408

Articles

50221258* 15 kg multilayer paper bag with
PE-lining

Country of origin

EU

Description

White to yellowish powder.

Powder system only consisting of protein hydrolysate. Lactovit HC is a spray-dried protein concentrate which is produced by enzymatic hydrolysis of caseinate.

Used in food for protein enrichment.

Composition

Ingredients in descending order of weight:

Enzymatically hydrolyzed sodium caseinate

Standards

All ingredients used in Lactovit HC are food and comply with applicable European food legislation.

Manufactured under ISO 9001 as well as HACCP methodology.

Specification

For further information see separate document: "Standard Specification" (not for regulatory purposes) available via BASF's World Account: <https://worldaccount.basf.com>

Storage conditions

The product should be stored at temperatures below 25 °C, in a dry place.

Shelf life

In its unopened original package under the mentioned conditions the product has a shelf life of 24 months.

Applications

Lactovit HC is not intended as an ingredient for food applications for infants under the age of 12 months. Lactovit HC can be used as a protein component in various kinds of food applications with special focus on nutritional properties, e.g. sports food, weight management, snack food.

Dosing

The dosage is depending on the intended level of protein enrichment.

Recipes are available on request.

Summary

Lactovit HC is an enzymatically hydrolyzed caseinate and can be used for various kind of food applications with focus on protein enrichment.
