

Micadelva™

Citrus | Fresh | Floral

Micadelva™ combines fresh orange peel with a subtle metallic edge that adds freshness and clarity. Gentle floral facets provide roundness and depth.

Micadelva™

Bright Citrus – Safe-by-Design

- Micadelva™ was developed as a non-allergenic* alternative to orange terpenes.
- Developed according to **BASF's Safe-by-Design** principles, Micadelva™ is a forward-looking innovation, engineered with human and environmental health considerations integrated from the earliest design stage.
- As a key member of **BASF's Future-Proof-Palette**, it empowers perfumers to create modern formulations that anticipate evolving regulatory landscapes - without compromising on olfactive performance.
