

Beta-Carotene 20% DC

Chemical names of active ingredient

Beta-carotene, provitamin A

CAS-No. 7235-40-7

EINECS-No. 230-636-6

PRD-No.

30061292

Article

50094891 25 kg bag in box

Country of origin

Denmark

Description

Free-flowing, dark-red powder with a mild characteristic odor, consisting of spherical particles with a uniform particle size. Some white starch particles may be visible.

Composition

Ingredients in descending order of weight: gelatin, corn starch, beta-carotene, sucrose, sodium ascorbate, tricalcium phosphate, tocopherol-rich extract.

Solubility

Dispersible in warm water (35 – 40 °C), to form a stable orange dispersion.

Specification

Assay min. 20%

For further information see separate document: "Standard Specification" (not for regulatory purposes) available via BASF's WorldAccount: <https://worldaccount.basf.com> (registered access).

$C_{40}H_{56}$

Molar mass 536.9 g/mol

Monographs

The active ingredient of Beta-Carotene 20% DC meets the requirements of the current "Beta-Carotene" Ph. Eur. monograph and "β-Carotene" monograph FCC 8 effective from June 1st 2012. Furthermore the active ingredient of Beta-Carotene 20% DC (E 160a (i)) complies with the EU regulation laying down specifications for food additives.

Regulations

Beta-carotene is approved for use as a food colorant and as a provitamin A source in most countries. However, specific regulations on the ingredients used in the respective countries and for the intended use have to be observed.

Bulk density

Approx. 0.6 g/ml

Stability

The product is stabilized with tocopherol (E 306) and sodium ascorbate (E 301).

The stability of Beta-Carotene 20% DC is excellent even in the presence of minerals. The product has a high mechanical integrity and little or none of the beta-carotene is expressed during tableting, resulting in good stability of the tablets. Stored in its original packaging at room temperature (max. 25 °C), it is stable for at least 36 months.

Storage/Handling

The product is sensitive to oxygen, light, heat, and moisture and should therefore be stored in the tightly closed original packaging at room temperature (max. 25 °C), in a dry and dark place.

Applications

Dietary supplements:

Beta-carotene dry powders are used as pro-vitamin A in solid multivitamin preparations.

Beta-Carotene 20% DC is used both as a pro-vitamin A and as an active ingredient. Due to its excellent flow properties, it is particularly suitable for use in multivitamin/mineral tablets and beta-carotene tablets, as well as hard gelatin capsules.

Food products:

Due to its composition, Beta-Carotene 20% DC is especially suitable for use in food supplement preparations, such as plain, effervescent, and coated tablets.

Note

Beta-Carotene 20% DC must be handled in accordance with the Safety Data Sheet.
