Apocarotinal Dispersion 20 MCT

Apocarotenal in medium-chain triglycerides

Chemical name(s) of active ingredient

Beta-apo-8'-carotenal, mainly in the form of the trans-isomer

CAS-No.	1107-26-2
EINECS-No.	214-171-6

PRD

30078425

Articles

50508476	4 x 5 kg plastic pail
52347502	0.1 kg aluminum drums

Description

Dark-brown dispersion of microcrystalline apocarotenal in medium-chain triglyceride oil. The product is packed under inert gas.

Benefits

Vegetarian/vegan[1], kosher, halal, allergen-free[2], gluten-free[3]

Composition

Ingredients in descending order of weight: medium-chain triglycerides, beta-apo-8'-carotenal, *all-rac*-alpha-tocopherol (DL-alpha-tocopherol)

Solubility

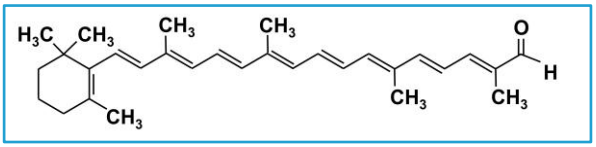

Soluble in benzene and chloroform; partially soluble in hexane and ethanol; moderately soluble in oils and fats. Insoluble in water.

Specification

Beta-apo-8´-carotenal	min. 20.0 g/100g

For further information see *Product Specification* (not for regulatory purposes) available in BASF's Human Nutrition Virtual Assistants:

https://nutritionvirtualassistants.basf.com

$C_{30}H_{40}O$ **416.6 g/mol**

Regulations

For quality documentation and compliance please see *Quality & Regulatory Product Information* and *Product Specification*. It is the obligation of the user to check the regulations on the ingredients used in the respective countries and for the intended use.

Stability and storage

Carotenoids are sensitive to light, heat and oxygen and need to be stored in a light-proof and airtight container. The product is stabilized with approximately 1% *all-rac*-alpha-tocopherol.

Stored in its unopened, original packaging at temperatures not above 25 °C, in a dry place, the product is stable for at least 36 months.

Handling

The product is a dispersion, therefore settling of carotenoid crystals may occur after prolonged storage. It is strongly recommended that the suspension in the container is warmed and mixed thoroughly prior to sampling or use.

Once opened, it is recommended to flush the packaging with an inert gas and to use the remaining contents as quickly as possible.

Applications

For use as a colorant in fats, oils, margarine, cheese, salad dressings, sauces and other fat-containing foods.

Suitability of these applications is presented based solely on technical feasibility. Local prevailing legal or regulatory requirements are not considered and should be observed separately. This product is not intended and recommended by BASF for use in food for infants and young children and has not been qualified by BASF for use in those applications with specific requirements. BASF is not testing or manufacturing the product to meet requirements which are applicable for these applications. BASF disclaims any representations, warranties and guarantees of fitness for such particular uses. BASF is not testing or manufacturing the product to meet requirements which are applicable for these applications. BASF disclaims any representations, warranties and guarantees of fitness for such particular uses.

Note

The product must be handled in accordance with the *Safety Data Sheet*.

[1] According to International Standard ISO 23662 on definitions and technical criteria for foods and food ingredients suitable for vegetarians or vegans and for labelling and claims.
[2] No labeling requirements with regard to allergens according to EU regulation (EC) No 1169/2011 (as amended) and the US Food Allergen Labeling and Consumer Protection Act (FALCPA).
[3] No ingredients used containing gluten. However, products are not explicitly tested on gluten.
