\* This product is vegetarian, halal, gluten free

**Country of origin**

EU

**Description**

White to beige colored powder with a neutral to fatty odor.

Fat powder blend with a high level of unsaturated fatty acids on a carrier system of protein and carbohydrates.

Used as fat component in food applications, e.g. cake mixes, soups, beverages as well as dietary supplements.

**Composition**

Ingredients in descending order of weight: Sunflower oil, glucose syrup, milk protein, citric acid esters of mono- and diglycerides of fatty acids (E 472c), lecithins (E 322), ascorbyl palmitate (E 304), tocopherol-rich extract (E 306), ascorbic acid (E 300).

**Standards**

All additives used in Cegepal® TG 186 comply with the current specifications established by the Joint FAO/WHO Expert Committee on Food Additives (JECFA) and the current EU Regulation laying down specifications for food additives.

Manufactured under ISO 9001/ISO 14001 as well as HACCP methodology.

**Specification**

For further information see separate document: “Standard Specification” (not for regulatory purposes) available via BASF’s World Account: <https://worldaccount.basf.com>

## **Storage conditions**

The product should be stored at temperatures below 20 °C, in a dry place. Keep away from odor intensive products.

## **Shelf life**

In its unopened original package under the mentioned conditions the product has a shelf life of 12 months.

## **Applications**

Cegepal® TG 186 is not intended as an ingredient for food applications for infants under the age of 12 months.

Cegepal® TG 186 can be used as a fat component in various kinds of food applications, e.g. cake mixes, cereals, dessert and cake filling cream, ice cream, soups and sauces as well as sport foods and dietary supplements to improve organoleptic properties as well as creaminess and mouth-feel of the finished products. Cegepal® TG 186 is cold dispersible.

## **Dosing**

Detailed recipes are available on request.

## **Summary**

Cegepal® TG 186 is designed for the usage in powder mixes where fat/oil with a high level of polyunsaturated fatty acids is required.
