30530606

Articles

50232144* 20 kg multilayer paper bag with PE-lining

* This product is vegetarian, halal, gluten free with max. 20 ppm under EU-Regulation ((EC) No. 41/2009, as amended).

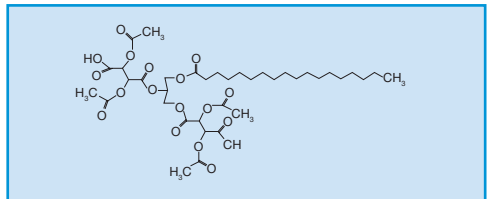

Country of origin
EU

Description

White to ivory colored fine powder with a slightly acidic odor. Spray-dried Datem on a carrier system of glucose syrup.
Used as an emulsifier for yeast raised products.

Composition

Ingredients in descending order of weight:
Mono- and diacetyl tartaric acid esters of mono- and diglycerides of fatty acids (E 472e), glucose syrup, tricalcium phosphate (E 341).

Datem

Standards

All additives used in Lamegin® DW 9000 comply with the current specifications established by the Joint FAO/WHO Expert Committee on Food Additives (JECFA) and the current EU Regulation laying down specifications for food additives. Manufactured under ISO 9001/ISO 14001 as well as HACCP methodology.

Specification

For further information see separate document: "Standard Specification" (not for regulatory purposes) available via BASF's World Account: <https://worldaccount.basf.com>

Storage conditions

The product should be stored at temperatures below 20 °C, in a dry place.

Shelf life

In its unopened original package under the mentioned conditions the product has a shelf life of 18 months.

This heat-resistant product has been developed for the application in regions with a hot climate.

Applications

Application in yeast raised products to obtain products with higher volume and equal crumb structure, e.g. baguette, white bread, crispy rolls.

Dosing

Following dosings of Lamegin® DW 9000 are recommended:

Yeast raised

products: 0.2 – 0.5% based on flour weight

Detailed recipes are available on request.

Summary

Lamegin® DW 9000 is a Datem, spray dried on a carrier system and especially developed for low temperature applications.

Even after storage of 18 months at temperatures up to 20 °C the product is still a free running powder with excellent baking properties.
