

# Lametop<sup>®</sup> P 65

## PRD-No.

30532006

## Articles

50286815\* 1000 kg IBC

\*This product is vegetarian, kosher, halal, gluten free

## Country of origin

EU

## Description

Clear to cloudy amber liquid paste with an acetic acid odor.

Carrier free Datem.

Used as an emulsifier in yeast raised products.

## Composition

Ingredients in descending order of weight:

Mono- and diacetyl tartaric acid esters of mono- and diglycerides of fatty acids (E 472e), tocopherol-rich extract (E 306), citric acid (E330).

## Standards

All additives used in Lametop<sup>®</sup> P 65 comply with the current specifications established by the Joint FAO/WHO Expert Committee on Food Additives (JECFA) and the current EU Regulation laying down specifications for food additives. Moreover, the emulsifier (Datem, E 472e) is in compliance with current FCC (Food Chemical Codex) specification requirements.

Manufactured under ISO 9001 as well as HACCP methodology.

## Datem

### Specification

For further information see separate document: "Standard Specification" (not for regulatory purposes) available via BASF's World Account: <https://worldaccount.basf.com>

### Storage conditions

The product should be stored at temperatures below 20 °C, in a dry place.

### Shelf life

In its unopened original package under the mentioned conditions the product has a shelf life of 15 months.

### Applications

Application in yeast raised products to obtain products with higher volume and equal crumb structure, e.g. baguette, white bread, crispy rolls. Also used as solvent/emulsifier for vegetable extracts.

## Dosing

The recommended dosing of Lametop® P 65 in yeast raised products is 0.2 – 0.5% based on flour weight.

Detailed recipes are available on request.

## Summary

Lametop® P 65 is a carrier free, liquid Datem, offering high product performance.
