

Lamequick® C 7520

PRD-No.

30653067

Articles

50862407* 25 kg multilayer paper bag with PE-lining

* This product is vegetarian, halal, kosher, gluten free

Country of origin

Germany

Description

White to yellowish powder.

Complex powder system consisting of emulsifier, protein and vegetable oil on a carrier system of glucose syrup.

Used as a whipping agent in all kinds of dessert applications.

Composition

Ingredients in descending order of weight:

Glucose syrup, vegetable oil (palm kernel, palm), lactic acid esters of mono- and diglycerides of fatty acids (E 472b), milk proteins.

Standards

All additives used in Lamequick® C 7520 comply with the current specifications established by the Joint FAO/WHO Expert Committee on Food Additives (JECFA) and the current EU Regulation laying down specifications for food additives.

Manufactured under ISO 9001 as well as HACCP methodology.

Specification

For further information see separate document: "Standard Specification" (not for regulatory purposes).

Storage conditions

The product should be stored at temperatures between 16 - 24 °C, in a dry place. Keep away from odor-intensive products.

Shelf life

In its unopened original package under the mentioned conditions the product has a shelf life of 18 months.

Applications

Used for various kinds of aerated food systems, e.g. cake filling creams, whipping creams, ice creams as well as mousse desserts.

However, specific regulations on the product and its ingredients in the respective countries and for its intended use have to be observed.

Dosing

Using Lamequick® allows an all in method during preparation.

The dosage is depending on desired volume, mouthfeel and firmness as well as the adding of further ingredients.

Recipes are available on request.

Summary

Lamequick® C 7520 is an aerating system based on vegetable oil which can be used for a broad range of applications in aerated food systems.
